

10 reasons why you should choose accessplanit's Course Manager as your training companies technology partner..

Ease of use

By listening to what our clients want, we have created an intuitive, yet amazingly powerful range of course management services that are refreshingly easy to use.

Total flexibility

Course Manager is completely modular. By selecting only those modules you need, you can have a cost effective and streamlined solution that's perfect for you and your business.

Complete functionality

Course Manager handles all the tasks you have to do, and more. With everything from online booking to email marketing and reporting on your courses taken care of, running a successful training business has never been easier.

Grow your solution with your needs

Over time, the demands on your business can change, but you don't need to change your training management system to keep pace. Adding new functions to your solution is easy, simply purchase and unlock further modules and your Course Manager system will grow with your business.

Continuous program of product development

Course Manager is regularly updated with new functions and features. Our customers are actively encouraged to talk to us and we use their feedback to shape the future of the system. All development takes place in-house and our experienced team of software engineers work hard to keep Course Manager at the fore front in its field.

Outstanding customer care

Before you invest, your locally based customer advisor will fully understand your needs, so that the solution you choose delivers the results that your business demands. Regular face-to-face reviews and feedback sessions with our team ensures your continued satisfaction.

Dedicated, in-house support team

The accessplanit support team has an excellent reputation in the industry, which is reflected in our high levels of client retention and loyalty. Our UK-based support team handles queries quickly and

efficiently. Working closely with our expert developers when necessary, the support team will go the extra mile to solve any challenge that your courses may present.

Personalised training

Course Manager is intuitive and simple to use. To help you take full advantage of Course Managers features and capabilities and ensure you have the skills to quickly maximise the full benefits of your system we provide you with a tailored training package to suit your individual requirements.

Secure, web-based solution

Because Course Manager is web-based you can access your system at any time or location. The accessplanit team take care of all hosting, updates and backups reducing the strain on your IT resources.

We employ a global industry leader to host your system to ensure the highest levels of data security and your complete peace of mind.

We come highly recommended!!

Accessplanit is proud of the great reputation it has gained in the training industry. Our client list speaks for itself and we have an enviable customer retention rate.
