accessplanit's Accessibility Roadmap

As part of our ongoing commitment to accessibility, we have evaluated our existing products to ensure compliance with the Web Content Accessibility Guidelines (WCAG) 2.1 AA standards, based on these findings we have produced a plan to remediate accessibility issues.

We are aware that the WCAG 2.2 guidelines have been released, but at this time, our focus is on achieving and maintaining compliance with WCAG 2.1. We recognise the importance of staying up to date with the latest accessibility standards and will conduct a reassessment of our website to address the WCAG 2.2 guidelines once we have met our 2.1 targets.

Accessibility Roadmap
